# Quartz Pioneer

Since 1987, Caesarstone® has been creating quartz surfaces in our state-of-the-art manufacturing facilities utilizing the most advanced technologies available with the highest standards of quality control and environmental responsibility.

With four diverse collections — Classico™, Supremo®, Motivo® and Concetto® — Caesarstone® is an ideal starting point whether you're building a new home or renovating your kitchen or bathroom.

## Surfaces For Your Home

Caesarstone's Classico™ collection combines style and functionality with colours and designs ideal for numerous applications in both residential and commercial interiors such as kitchen benchtops, splashbacks, bathroom wall linings, custom made furniture and more.

## Choose Caesarstone®

Our surfaces consist of up to 93 per cent quartz which is stronger than natural stone and one of nature's hardest minerals. Quartz is resistant to stains, scratches, cracks and is impervious to heat, cold and common household chemicals. Our surfaces retain the cool, tactile qualities of natural stone, while offering almost unlimited design possibilities.

*Insist on the original quartz surface*

With all the stain, scratch and water resistant qualities of quartz, the supernatural designs are ideal for benchtops, splashbacks, wall linings and furniture.
