

 QUANTUMQUARTZ
DESIGNER STONE

Natural Quartz collection

The beauty of natural stone with the benefits of engineered stone

Natural Quartz

The Quantum Quartz **Natural Quartz Collection** is inspired by nature and stone that has been used since the dawn of civilization. Popular natural marbles such as Calacutta, Carrara, Bianco Venato, Empire Satin and Crema Marfil form the foundation and inspiration for the **Natural Quartz Collection**.

The Natural Quartz Collection

- Combines the warmth and individuality of natural stone with the durability and low maintenance of Quantum Quartz engineered stone.
- Can be used for a variety of applications including, kitchen benchtops, splashbacks, vanities, floors, walls, special features and more.
- Will never require sealing and is highly heat, stain and scratch resistant and is backed by a 10 Year Limited Warranty.

Slab size 1440 x 3040 mm

Thickness 20 mm

Collection

Note: Quantum Quartz is a natural based surface. It may contain variation in colour due to raw materials. Particles used in products may sometimes produce minor irregularities such as blotches and coloured particles. Due to the natural design of the Natural Quartz Collection, it is highly recommended for the customer to view the whole slab when possible.
